Matese

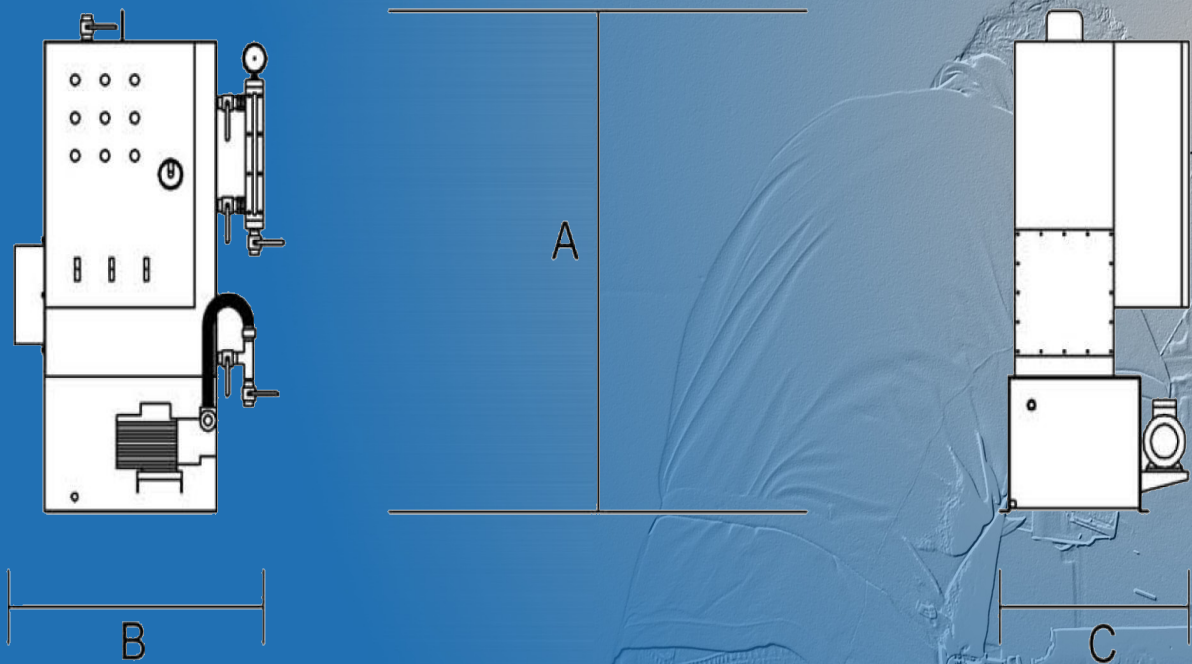

- Without patented conductor
- Reduced dimensions
- High efficiency

Vertical steam generator to occupy a compact area. These generators are designed with thicker plating in the parts with high pressure, to resist as long as possible.

**MODEL A.M.C. ELECTRIC**

Made according to 97/23/CE

Power	nr. Resistance	nr. switches/resistance	Pressure Bar.	Dimensions and weight	Water inlet in tank	Steam outlet
KW.18 24 Kg/H Steam	nr 3 Resistances of 6KW	nr 1 Switch/resistance	5	A.1370 MM. B.850 MM. KG. 120 C.630 MM.	1/2" GAS Male	1/2" GAS Female
KW.24 32 Kg/H Steam	nr 4 Resistances of 6KW	nr 2 Switch/resistance	5	A.1370 MM. B.850 MM. KG. 125 C.630 MM.	1/2" GAS Male	1/2" GAS Female
KW.32 43 Kg/H Steam	nr 4 Resistances of 8KW	nr 2 Switch/resistance	5	A.1370 MM. B.850 MM. KG. 130 C.630 MM.	1/2" GAS Male	1/2" GAS Female
KW.48 64 Kg/H Steam	nr 6 Resistances of 8KW	nr 3 Switch/resistance	5	A.1370 MM. B.850 MM. KG. 135 C.630 MM.	1/2" GAS Male	1/2" GAS Female
KW.64 85 Kg/H Steam	nr 8 Resistances of 8KW	nr 4 Switch/resistance	5	A.1370 MM. B.850 MM. KG. 140 C.630 MM.	1/2" GAS Male	1/2" GAS Female

**The supply includes:**

- Coil made of carbon steel with certified materials as designed
- Platform/feed tank in stainless steel AISI 304
- Proper insulation and covering in stainless steel AISI 304 properly shaped.
- CALPEDA pump TP78 A safety valve, safety pressure switch.
- Stainless steel cocks AISI 316 and malleable iron pipe fittings
- The unit is supplied with electrical and water connections already made

**On request, with an extra charge:**

- Steam generators with different power from those of series.
- Stainless steel AISI 316 fittings.
- Sacrificial anode
- Timed automatic purge
- Valve for preheating
- Water softener
